---

## Notes

Rows 7-30 is the body of the design and is repeated 30 times.

Use the color for each right side row according to the temperature chart and your recorded temperatures.

The return wrong side row is worked with the same color as the previous right side row. For example; if it is 24°C on June 4<sup>th</sup>, you work Row 21 of the pattern using Color 608, and the return row is worked in the same color. June 4<sup>th</sup> corresponds to rows 309 and 310 in the scarf. In the temperature log tables, you find a reminder of which pattern row to work on which day of the year.

The return (WS) rows, are worked in pattern, knitting the knit stitches, and purling the purl stitches.

# Color Chart

Scheepjes Merino Soft yarn has many colors to choose from, which makes it possible to make several colorways. Feel free to make your own colorway based on your favorite image.

							
648	642	644	620	641	608	622	609
< 0°C	0.1 – 5.0	5.1 – 10.0	10.1 – 15.0	15.1 – 20.0	20.1 – 25.0	25.1 – 30.0	> 30.1°C
< 31°F	32 – 40	41 – 50	51 – 59	60 – 68	69 – 77	78 – 86	> 87°F

## Color Placement

Use the color for each RS row according to the temperature chart guide and the recorded temperature of your location of choice. Use the empty color chart provided to keep track of the temperature in your home town and the color that corresponds to each RS row. I use the maximum day temperature for my scarf, but you could use the minimum, maximum, or average temperatures.
